In classrooms across the state, JAG Nevada uplifts under-resourced youth to achieve their greatest potential in education, career and life.

These talented, intelligent and promising youth flourish with the extra support received from JAG Nevada's caring Specialists.

These professionals provide a structured support system to empower youth through real-life mentoring, support, inspiration, workplace-readiness training, career exploration and preparation that transforms students, families and communities for generations.

****Serving 14 of 17 counties**

C'Niya, 2023 Graduate of Valley High School

Received her Comp TIA A+ certification through a JAG partner, Tech Impact. "I've learned the basics of professional and workplace skills all throughout my years in JAG Nevada that shaped my career. This has made me realize that I'm a step ahead." She is now Tech Support for a staffing agency, working in her dream career in IT.

Talon, 2023 graduate of Tonopah High School

During a JAG Nevada career exploration visit to Kinross Gold Corporation mine in Round Mountain, Talon was inspired to pursue the mining industry as a career pathway. After graduation, he landed a job at KGHM – Robinson Nevada Mining Company, a copper mine in Ely, where he makes a great hourly wage as a haul truck operator.

An investment in JAG Nevada is an investment in long-term student success. The average cost to operate one program is \$115,000 annually, or approximately \$2,000 per student served—a cost that delivers lasting impact well beyond the classroom.

Your support makes possible:

- **Workplace Readiness Class:** A credit-bearing elective course where students master 87 essential employability competencies, preparing them for both career and life success.
- **Supportive Services:** Direct assistance that removes barriers to education and employment. Examples are bus passes, tools, textbooks, and professional attire.
- **Career Exploration:** Meaningful exposure to career pathways through employer engagement, college tours, guest speakers, and career fairs.
- **12–24 Month Follow-Up:** Ongoing guidance and support to ensure students successfully transition into and persist in their chosen career or postsecondary pathway.
